TANZAKU PAPER

(Share online at www.facebook.com/WorldTanabataAction)

Tanabata is a Japanese custom

People write their wishes such as "Health for the family!" or "Peaceful World!" and hang them on the branches of bamboo, in the evening of the July 7th.

This is based on an old, romantic tale that a couple loved each other too much to work, so God got angry and made them two stars separated by the Milky Way, and allowed to meet only on that one day of the year.
